

Hello everyone

You will all have now heard the announcement from the Government regarding the recent change in direction for primary schools. The Secretary of State for Education has accepted that schools cannot welcome back all children as long as social distancing and shielding remains the same as before the end of this term. It is simply not a practical possibility in most schools.

We have 10 bubbles up and running for Key Worker and vulnerable children and where capacity has allowed, we have welcomed back a few more children in EYFS and Year 1. We now have waiting lists in place for the majority of our bubbles.

Thank you to every parent/carer who has returned this week and last for adhering to the 2 metre rule when arriving and leaving the premises. The children have been superb, from the youngest to eldest in what can only be described as 'unusual circumstances'! In school, the children have adapted brilliantly to their bubble environment.

With the end of term just weeks away, we urgently need the Government to provide as much clarity as possible about their plans for September and beyond. We are committed to achieving a full return to education for all pupils in the safest way possible and hope to enter the summer holidays knowing what arrangements will be required of us at the other end of it. Many of you have also been asking about Key Worker summer holiday provision - as yet, there is no guidance from the Government.

Just a polite reminder to those of you that are bringing your children to school – one household member only is to drop off and collect and when at home, please abide by social distancing rules and not enter or visit other people's homes. Where we know this is happening, we will no longer be able to offer a place in the bubble regardless of the family situation.

Thursday 18th / Friday 19th June

Yesterday, Mr Warren posted a letter on Class Dojo, Facebook and the school website inviting you to come and collect an exercise book, homework books (some year bands already have theirs), reading book and a surprise gift from all of us.

We would love to see you, please try to arrive in your allocated time slot and observe social distancing. We will provide gloves for the child/or you to choose the books you would like to take home.

Happy news!

We are pleased to announce the happy news that Mrs Morgan is expecting her second child in December. We are delighted and I'm sure you will join us in sending our congratulations!

Last week we appointed Mrs Warren, an experienced teacher to join the team. I hope to be able to confirm who will be teaching where in the next few weeks.

Resources for sharing with children

We know that many of you are really trying your best to maintain learning and good routines at home. You will have good days and some not so good ones. When things aren't going so well, take a break, play a game, get some fresh air and try again another day. Be kind to yourself and cherish your children. The best thing you can do is help them to feel loved and safe.

These resources below may help your child to understand the virus a little better and revisit good hand hygiene. They come recommended by Cornwall County Council.

NHS Resources and videos

- [Handwashing for children](#)
- [Coronavirus factsheet for kids](#)

And a few more...

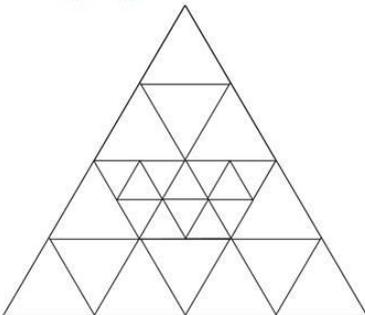

- Youtube videos explaining infections to children:
 - [How can I stop germs?](#)
 - [How can a body fight germs?](#)
 - [How do germs spread?](#)

You can find many resources for teaching children about infections and infection control on the [ebug website](#).

- [My Hero is you](#): A book that aims to help children understand and come to terms with COVID-19. This explains how children can protect themselves, their families and friends from coronavirus and how to manage difficult emotions when confronted with a new and rapidly changing reality.
- [Coronavirus, a book for children](#): This book answers key questions in simple language appropriate for 5 to 9 year olds.
- [The Stay Home Superheroes](#): An online ebook about the importance of staying at home and how this is helping to stop the spread of the virus.
- [Guide to Coronavirus](#): PDF explaining what coronavirus is, how to spot the symptoms, how to prevent the spread and manage emotions.
- [Save the World](#): a family-friendly educational game to help face the Coronavirus pandemic. Players of all ages can become better at social distancing through playing.

The answer to last week's maths challenge from Mrs Rogers 😊

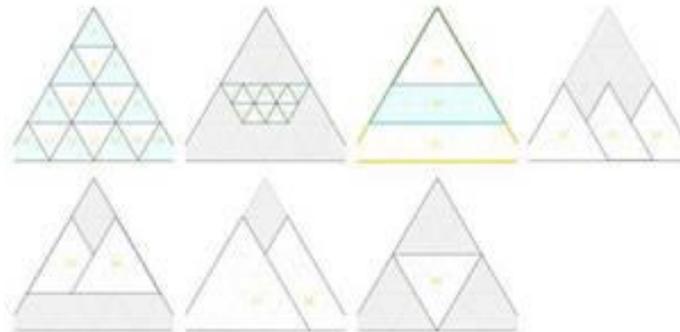

How Many Triangles are in the Picture Below?

The Chough

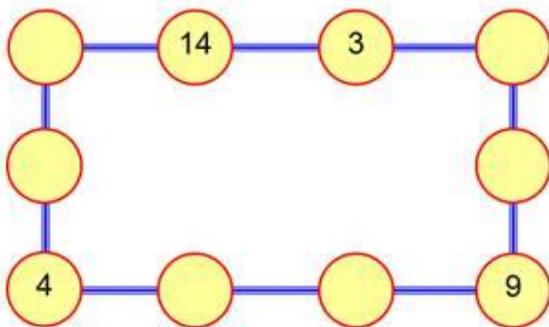

There are a lot!!

Then 2 more were found = 41!!!

Maths puzzle for this week:

Using any whole numbers as many times as you like make each line of the rectangle add up to 20.

Can you find more than one way to do this?

Can you make up your own puzzle like this?

Just to note, this term is officially due to end on Tuesday 21st July 2020.

To all of you at home in these challenging times, we miss you and look forward to seeing your sunny faces on the other side of the rainbow.

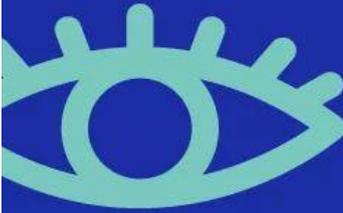

If you have a personal family situation and require me to phone you please email: secretary@treloweth.cornwall.sch.uk in the subject box, write FAO: Headteacher with a short message and your name and phone number and I will call you.

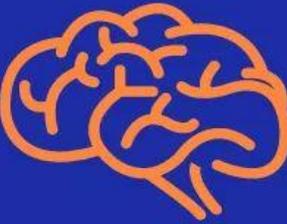

Stay alert and best wishes, Mrs May
